DETAILED ACTION

Allowable Subject Matter

Claims 9-18 are allowed.

The following is an examiner's statement of reasons for allowance:

There is no teaching or suggestion in the art of record disclosing a memory cell array structure comprising first conductors formed from a first metal wiring layer, the first conductors extending linearly in parallel with the gate electrodes and each connecting the source regions to one another between adjacent ones of the gate electrodes and second conductors formed from a second metal wiring layer that is above the first metal wiring layer, the second conductors orthogonally crossing the gate electrodes and connected to the drain regions through contacts, both in combination with the other limitations of claim 9. Therefore, independent claim 9 is deemed allowable along with its dependent claims 10-18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas M. Menz whose telephone number is 571-272-1877. The examiner can normally be reached on M-F 8-5.
